PEAK-SUMMER POLAR EXPEDITION

Antarctica: Life at the End of the Earth

A 14-night small-vessel journey aboard Hans Hansson with Martin Gregus and only 12 guests.

DATES	DURATION	GROUP SIZE	TRIP PRICE
16 January - 30 January 2028	15 Days / 14 Nights	Maximum 12 Guests	US$29,850

HIGHLIGHTS

Peak summer, a small vessel and freedom to follow the conditions

01

14 Nights Aboard

Two weeks aboard Hans Hansson, designed around field time rather than a rushed schedule.

02

Only 12 Guests

A genuinely small group with more time for guidance, wildlife observation and flexible decisions.

03

Peak Summer Light

Long daylight hours for ice, landscapes and wildlife during the heart of Antarctic summer.

04

Wildlife Encounters

Possible penguins, Weddell, crabeater and leopard seals, humpbacks, minkes and orcas.

05

Daily Exploration

Zodiac excursions and shore landings whenever weather, ice and safety allow.

06

Martin Gregus

Photography workshops, fieldcraft, image reviews and the experience of a polar specialist.

ABOUT THE EXPERIENCE

Move with the continent, not against it

Antarctica shifts with weather, ice, water and light, revealing itself slowly to travellers willing to move with the conditions.

Timed for peak Antarctic summer, this 14-night voyage is built around long daylight, active wildlife, sculpted ice and the freedom to adapt each day around what the continent gives you.

Expect Zodiac excursions, shore landings, penguin colonies, seals, whales, glaciers and icebergs in one of the most remote environments on Earth. Some days may be calm and luminous. Others may be wild, cold and weather-driven.

With Martin beside you, Antarctica becomes a lesson in patience, observation and storytelling, shaped by one of the planet's great polar wildernesses.

"To be in the presence of a unique visionary like Martin Gregus and be welcomed into his home away from home in the middle of nowhere is truly a once in a lifetime event right up there with getting married or having a child."

Anne Prather · United States

YOUR STORYTELLER GUIDE

Martin Gregus

Martin Gregus

WILDLIFE PHOTOGRAPHER AND CINEMATOGRAPHER

Martin Gregus grew up in Bratislava, Slovakia, in a household full of artists. He learned photography from his father and was exploring local wildlife with a camera before most kids had decided what they wanted to do with their lives.

His work has taken him across all seven continents and some of the most remote ecosystems on the planet. He has earned two wins and two nominations at Wildlife Photographer of the Year, and his polar bear project, 33 Days Among the Bears, became an international story after National Geographic coverage.

His cinematography has contributed to productions for Disney, BBC and Netflix. In the field, Martin teaches patience, preparation and how to read wildlife, weather and light.

WHY THIS TRIP?

A proper expedition rhythm with only 12 guests

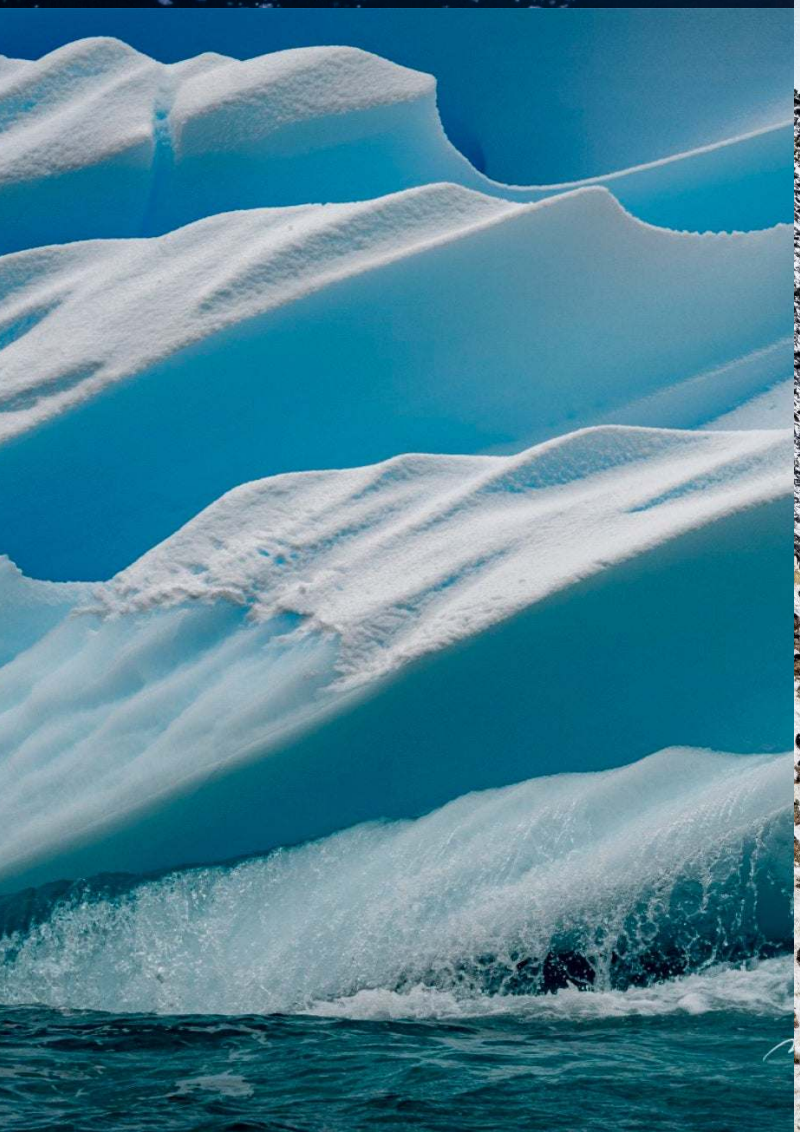

Hans Hansson gives the group a smaller, more responsive platform for exploring Antarctic waters. The route can adapt to the strongest wildlife, ice and light available each day.

Martin is part of the daily rhythm, from gear preparation and fieldcraft to composition, wildlife behaviour and image review. The trip is designed for wildlife lovers as much as photographers.

Antarctica remains weather-driven and unpredictable. Every landing and route decision is made around safety and conditions, preserving the expedition character of the journey.

DAY BY DAY

Your 15-day peak-summer journey

DAY 1	**Embarkation** Board Hans Hansson at the confirmed departure port, settle into your cabin, meet Martin and the expedition team, and begin with safety briefings.	EXPEDITION
DAYS 2–3	**Crossing South** Sail into polar waters with seabirds following the vessel. Martin leads photography briefings, gear preparation and fieldcraft sessions.	EXPEDITION
DAYS 4–6	**First Antarctic Landings** Conditions permitting, explore by Zodiac and on foot among glacier-backed landscapes, sculpted ice, penguin colonies and the immense scale of Antarctica.	EXPEDITION
DAYS 7–10	**Wildlife, Ice and Polar Light** Follow the best conditions for penguins, seals and whales while working with icebergs, glaciers, reflections and long peak-summer light.	EXPEDITION
DAYS 11–12	**Follow the Best Conditions** The captain and expedition team stay flexible, returning to productive areas or moving to new coastline as weather, ice and wildlife dictate.	EXPEDITION
DAYS 13–14	**Return Crossing** Sail north with time for editing, presentations, image reviews, wildlife watching from deck and a final shared dinner onboard.	EXPEDITION
DAY 15	**Disembarkation** Return to the confirmed port and disembark after breakfast. Exact joining details will be supplied before guests book travel.	EXPEDITION

YOUR EXPEDITION VESSEL

Fourteen nights aboard Hans Hansson

Hans Hansson is the expedition base for the crossing, wildlife scouting, briefings, shared meals, workshops and daily route decisions.

The vessel carries a maximum of 12 Airguides guests, keeping the group close to the expedition team and allowing a flexible response to conditions.

Cabin categories and exact layout have not been supplied on the current trip listing. Airguides can confirm cabin availability and joining details before booking.

Not Included

- International and domestic flights
- Hotels before or after the expedition
- Travel insurance, including medical evacuation cover
- Visa or transit fees where applicable
- Personal camera equipment and personal expenses
- Crew gratuities
- Costs caused by weather or travel delays

Final routes, landings and wildlife encounters depend on weather, sea, ice, safety and local permissions.

FAQ

What guests usually need to know

Where does the expedition start and finish?

The final embarkation and disembarkation port is still to be confirmed. Guests will receive exact joining details before booking travel.

What wildlife might we see in late January?

Peak summer can bring penguin colonies, Weddell, crabeater and leopard seals, seabirds and possible encounters with humpback, minke and orca whales. Wildlife is never guaranteed.

Is the route guaranteed?

No. Antarctica is weather-driven and ice-dependent. The captain and expedition team shape each day around safety, conditions, wildlife activity and landing permissions.

Can I join if I am not a photographer?

Yes. The trip is for wildlife lovers and adventurous travellers as well as photographers. Martin's guidance is useful at every level.

What fitness level is required?

Guests should be comfortable stepping in and out of Zodiacs, walking on uneven or snowy ground and spending time outside in cold, wet and windy conditions.
