
LIVEBOARD EXPEDITION

Galapagos: A Land Lost in Time

A 9-day Galapagos liveboard with underwater photographer Brooke Pyke and cinematographer Nush Freedman. 19 dives, Wolf and Darwin, Galapagos Sky, and a group limited to 14 guests.

DATES

12-20 June 2027

DURATION

9 Days / 8 Nights

GROUP SIZE

Max 14 Guests

FROM

US\$9,750

HIGHLIGHTS

A serious dive expedition through the wildest edge of the Galapagos

01

19 Planned Dives

Wolf, Darwin, Fernandina, Isabela, Cousins Rock and more, with up to four dives per day on key liveaboard days.

02

Galapagos Sky

Seven nights aboard the Galapagos Sky, a dedicated liveaboard designed for remote diving in the archipelago.

03

Wolf and Darwin

Three full days focused on two of the most sought-after dive regions on the planet.

04

Ocean Giants

Hammerheads, whale sharks, Galapagos sharks, sea lions, marine iguanas, rays, penguins and giant tortoises.

05

Photo and Video

Daily underwater photography, video and marine biology sessions led by Brooke Pyke and Nush Freedman.

06

Trip Gallery

Guests receive a professional gallery of images and footage from the expedition.

ABOUT THE EXPERIENCE

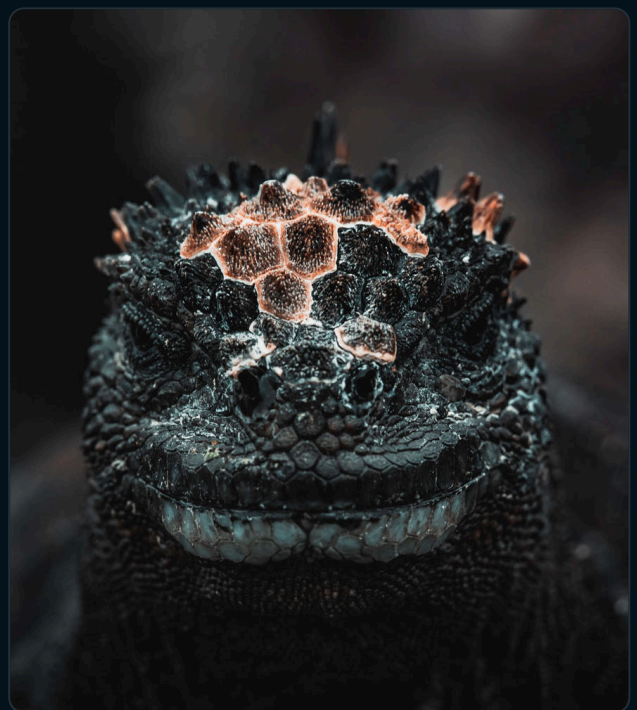

The Galapagos should not feel possible. That is the point.

A cluster of volcanic islands 1,000km from the nearest coast, cut off long enough for life to take its own path. Above and below the waterline, the Galapagos still feels like the beginning of the world.

Below the surface, that isolation created something found almost nowhere else: hammerhead sharks schooling in the hundreds, whale sharks drifting through open water, marine iguanas feeding on reefs, and sea lions that treat divers like playmates.

Your route sails north from San Cristobal to Wolf and Darwin for three full days at two of the most famous dive regions on Earth, then south through Fernandina, Isabela and Cousins Rock.

This is advanced diving in one of the most biodiverse marine environments on the planet, guided by two of Australia's most respected ocean storytellers.

Marine iguanas, blue-footed boobies, giant tortoises and volcanic shorelines make the land time as strong as the diving.

"Swimming alongside whale sharks is one thing. Doing it with someone who genuinely loves the ocean as much as Brooke does, and who wants to share that with you, that's something else entirely."

Tessa H · Sydney

YOUR EXPEDITION TEAM

Brooke Pyke and Nush Freedman

Brooke Pyke

UNDERWATER PHOTOGRAPHER

Brooke is an award-winning Australian underwater photographer whose work has taken her from Western Australia and Indonesia to Tonga and beyond.

In the water she brings a calm, intuitive approach that helps guests feel confident while creating images they are proud of. Marine conservation sits at the heart of how she teaches, shoots and leads.

Nush Freedman

CINEMATOGRAPHER

Nush is an underwater cinematographer, wildlife filmmaker, dive master and marine expedition guide based around Ningaloo Reef.

Her work in remote oceans has contributed to high-profile documentary productions for major international broadcasters and streaming platforms. On this expedition, she supports guests with video, storytelling and ocean awareness.

"Photography and art have the power to ignite a passion for conservation in the next generation." – Brooke Pyke

WHY BOOK THIS EXPERIENCE?

Built for divers who want more than a checklist

This is not a broad sightseeing cruise. It is a focused liveaboard expedition for confident divers who want proper time in the remote marine sites that made the Galapagos legendary.

The value is in the combination: a private liveaboard rhythm, the remote northern route, a small group, and guides who understand how to tell the story of the ocean while respecting the animals first.

Brooke and Nush are not there as distant names on the itinerary. They are part of the daily rhythm: field support, photo and video sessions, marine biology context, and a professional gallery that lets guests stay present in the water.

DAY BY DAY

Your 9-day Galapagos journey

DAY		ARRIVAL
1	Welcome to San Cristobal Arrive in San Cristobal and meet Brooke, Nush and your fellow guests for a welcome dinner near the harbour. The wildlife starts before the boat, with sea lions and island life already along the shoreline.	
2	Aboard the Galapagos Sky The crew meets you at your hotel and escorts you to the Galapagos Sky. After gear setup, cabin assignment, briefings and introductions, the ship sets sail for Isla Lobos and your first checkout dive.	1 DIVE
3	Cousins Rock and North Seymour Spend the morning ashore at North Seymour with blue-footed boobies, frigatebirds, land iguanas and sea lions. In the afternoon, move to Cousins Rock for wall dives with black corals, barracuda, frogfish, seahorses and sea lions.	2 DIVES
4-6	Wolf and Darwin Islands Three days in the headline dive region. Expect schooling hammerheads, Galapagos sharks, eagle rays, dolphins, yellowfin tuna, mobula rays and, from June to November, regular whale shark movement through the blue.	11 DIVES
7	Fernandina and Isabela Cape Douglas on Fernandina is built for marine iguana encounters. Punta Vicente Roca on Isabela brings vertical walls, endemic black corals, lobster, nudibranchs, bullhead sharks, red-lipped batfish and the chance of mola mola.	3 DIVES
8	Santa Cruz and Giant Tortoises One more dive at Pinzon Island before heading ashore to the Santa Cruz highlands to meet giant tortoises. Return to the ship for the final evening with the group.	1 DIVE
9	Farewell to Paradise Disembark in San Cristobal at 8:30 AM, visit the Interpretation Center for one last dose of island history, then gather for a relaxed farewell meal before airport transfers.	DEPARTURE

North to Wolf and Darwin, then through the western islands

YOUR LIVEABOARD

Seven nights aboard Galapagos Sky

The Galapagos Sky gives the group the range needed for the northern sites, the support needed for repeated dive days, and the comfort needed between serious underwater sessions.

Cruise rates include liveaboard accommodation, meals and snacks, beverages including the open bar policy, tanks, weights, belts, dive guides, transfers between airport and dock on departure dates, and three land excursions.

Expect a proper liveaboard rhythm: gear stations, briefings, tenders, shared meals, time to review images, and enough deck space to reset before the next dive.

LIFE ON BOARD

A small-group expedition with space to learn

With a maximum of 14 guests, the experience stays personal. The boat becomes the base for diving, workshops, marine biology talks, editing time and the quiet processing that happens after a big day in the water.

Brooke and Nush lead photography and video sessions across the trip, from in-water decisions to storytelling and post-dive review. Guests also receive digital copies of professional trip imagery and footage.

A one-night pre-trip stay in San Cristobal is included in the source brochure, making the arrival flow cleaner before boarding the liveaboard.

7

nights aboard Galapagos Sky

19

planned dives across the route

14

guest maximum on the charter

3

land excursions included

"Airguides were exceptional hosts for our Raja Ampat liveaboard dive trip. Seamless, professional and incredibly well organised from start to finish."

Adam McKnight · Raja 2025

THE DETAILS

What's included

Included

- Seven nights aboard the Galapagos Sky liveaboard
- One night pre-trip stay in San Cristobal
- All meals and snacks aboard the liveaboard
- All beverages including the open bar policy
- Tanks, weights and belt
- Up to four dives per day on 5.5 dive days for the seven-night cruise
- 19 planned dives across Wolf, Darwin, Fernandina, Isabela and Cousins Rock
- Three land excursions
- Dive guides, ship services and listed amenities
- Transfers between airport and dock on departure dates only
- Photo, video and marine biology sessions with Brooke and Nush
- Professional digital trip gallery and video assets

Dive sites, dive counts and landings are always subject to weather, safety, park rules and local conditions.

Not Included

- International flights to Ecuador
- Domestic flights to and from the Galapagos unless specified
- Travel insurance, required
- Personal dive equipment rental unless listed in booking terms
- Nitrox, if not included in final booking terms
- Galapagos National Park fees, transit cards or local fees unless specified
- Tips, gratuities and personal expenses
- Optional pre or post-trip accommodation and activities

FAQ

What guests usually need to know

How experienced do I need to be?

This is an advanced diving expedition. Guests should be comfortable with repeated dive days, current, blue-water entries, liveaboard routines and following dive guide instructions in remote conditions.

How many dives are planned?

The trip includes 19 planned dives, including Wolf and Darwin, Fernandina, Isabela, Cousins Rock and Pinzon. Final dive plans depend on weather, safety, park rules and conditions.

Do I need to be a photographer?

No. The trip is valuable for wildlife lovers and serious divers as well as photographers. The masterclasses are there to help guests improve, understand the species and bring home stronger stories.

What wildlife might we see?

Expect the possibility of hammerheads, whale sharks, Galapagos sharks, eagle rays, mobula rays, sea lions, marine iguanas, penguins, giant tortoises and blue-footed boobies. Wildlife is wild, so sightings cannot be guaranteed.

What is the group size?

The expedition is limited to 14 guests, keeping the experience personal and giving guests more direct time with Brooke, Nush and the dive team.
